Game

Idube Private Game Reserve is home to the "Big Five" being elephant, rhino, buffalo, lion and leopard and an abundance of other game such as cheetah, hippo, crocodile, giraffe, kudu, waterbuck, etc. Over 300 bird species have been recorded on the reserve. Game viewing is outstanding all year round.

Safaris

Safaris are in open vehicles with an experienced ranger and tracker. There are two game drives daily, lasting about 3 hours each. The early morning drive starts at sunrise.

On the late afternoon game drive, having had a sundowner in the bush, spotlights are used to spot predators like lion, leopard, hyenas, civet and other nocturnal species.

The game drives are exciting, often venturing off-road and offering exceptionally close encounters with game. Photographic opportunities are outstanding.
